

NEO TSIETSI MOKHELE

Intermediate Frontend Developer

neomokhele23@gmail.com | +27 064 847 3363 | Delft, Cape Town, ZA | Portfolio

TECHNICAL SKILLS

Frontend

- React.js
- Next.js
- Angular
- Vue.js
- React Native
- HTML5
- CSS3

Languages

- TypeScript
- JavaScript (ES6+)
- PHP

Backend & APIs

- Node.js
- Nest.js
- Laravel
- REST APIs
- GraphQL

Styling

- TailwindCSS
- Styled Components
- SASS/SCSS
- Material UI

State Management

- Redux
- Context API
- Zustand

Testing

- Jest
- React Testing Library
- Unit Testing
- Component Testing

Databases

- MongoDB
- MySQL

Tools & Platforms

- Git
- GitHub
- CI/CD
- Vite
- Webpack
- Figma
- Asana
- Slack
- Vercel
- WordPress

Methodologies

- Agile / Scrum
- Microservices
- Responsive Design
- Accessibility (a11y)
- SEO Optimisation
- Performance Optimisation

EDUCATION

Certificate in Web Application Development (PHP)

University of South Africa (UNISA)
2019

Diploma in Information Technology

Damelin College
2019

National Senior Certificate (Matric)

Steynsrus Combined School
2015

PROFESSIONAL SUMMARY

Detail-oriented Intermediate Frontend Developer with 7+ years of progressive experience designing and delivering high-performance, accessible web and mobile applications. Proficient in React.js, Next.js, Angular, React Native, TypeScript, and TailwindCSS across web and mobile microservices architectures. Proven ability to translate Figma designs into pixel-perfect, responsive UIs, implement robust REST API integrations, and write reliable unit and component tests using Jest and React Testing Library. Adept in Agile/Scrum environments with a strong record of shipping clean, maintainable code that directly improves user engagement, page performance, and business outcomes.

PROFESSIONAL EXPERIENCE

Intermediate Frontend Developer

Nov 2024 – Present

Bitcube · Cape Town, ZA · Full-Time

Stack: Angular · Next.js · React.js · TypeScript · TailwindCSS · Nest.js · MongoDB · REST APIs · Jest · React Testing Library · Vite · Git · GitHub · CI/CD · Figma · Asana · Slack

- Architect and deliver scalable frontend features across Angular, Next.js, and React codebases within a Nest.js microservices architecture.
- Convert Figma specifications into pixel-perfect, WCAG-compliant interfaces using TailwindCSS, reducing QA revision cycles by 30%.
- Write and maintain comprehensive unit and component tests using Jest and React Testing Library, increasing code coverage and reducing production defects.
- Collaborate with cross-functional teams in Agile/Scrum sprints, contributing to on-time delivery of milestones tracked via Asana and Slack.
- Implement and consume RESTful APIs, manage MongoDB schemas, and optimise build pipelines with Vite, improving development speed.
- Champion clean-code standards through peer code reviews in Git/GitHub pull-request workflows integrated into CI/CD pipelines.
- Drive performance gains via code splitting, lazy loading, and bundle analysis, improving Core Web Vitals scores.

Fullstack WordPress Developer

Mar 2024 – May 2024

Chiropradic · Australia (Remote) · Contract

Stack: WordPress · PHP · JavaScript · HTML5 · CSS3 · REST APIs · SEO · MySQL

- Designed and built custom WordPress themes and plugins using PHP, HTML5, CSS3, and JavaScript, delivering responsive user experiences for an Australian client.
- Integrated third-party REST APIs to add dynamic functionality, improving customer engagement and reducing manual content management overhead.
- Executed comprehensive SEO audits and on-page optimisation strategies, improving organic search visibility and reducing bounce rates.
- Hardened site security through authentication protocols, input validation, and vulnerability patching.
- Optimised page load performance through image compression, caching, and code minification, achieving significant Lighthouse score improvements.

Frontend Mobile Developer

Feb 2022 – Mar 2024

Reecheble (Pty) Ltd. · Johannesburg, ZA · Full-Time

Stack: React Native · React.js · TypeScript · TailwindCSS · Redux · Context API · Node.js · REST APIs · Git · GitHub

- Engineered cross-platform mobile applications with React Native from concept to production, improving user retention through performance-optimised UI flows.
- Built reusable, accessible React component libraries and TailwindCSS design systems in partnership with UI/UX designers, accelerating feature velocity.
- Managed complex application state with Redux Toolkit and Context API, eliminating unnecessary re-renders and improving responsiveness on low-bandwidth devices.
- Integrated Node.js backend services and RESTful APIs for efficient data handling.
- Operated within Agile sprint cycles, consistently meeting delivery commitments through clean, well-documented code.

Junior Web Developer

Aug 2018 – Apr 2021

Talk360 Africa (Pty) Ltd. · Johannesburg, ZA · Full-Time

Stack: Laravel · Vue.js · WordPress · JavaScript · HTML5 · CSS3 · MySQL · PHP · Git

- Developed and maintained multiple production websites using Laravel, Vue.js, WordPress, PHP, and MySQL across diverse client verticals.
- Applied mobile-first responsive design best practices to improve usability metrics and mobile engagement.

Vincent Sebothoma
Backend Developer
Reecheble (Pty) Ltd.
vincentsebothoma94@gmail.com

Khothatso Sekhoto
Financial Administrator
Talk360 Africa (Pty) Ltd.
thatsos@armoscordy.co.za

- Diagnosed and resolved frontend and backend performance bottlenecks, reducing page load times and bounce rates.
- Utilised Git for version control, supporting efficient team collaboration through clear commit histories and branching strategies.
 - Maintained thorough project documentation to support knowledge transfer, onboarding, and long-term code maintainability.

PROJECTS

Weather Forecast App

Real-time, location-aware weather application with dynamic data visualisation. Built with Next.js, TypeScript, TailwindCSS, and Google Maps / Geolocation API. Features server-side rendering for optimal SEO and Core Web Vitals performance.
neomokhele-weather-app.vercel.app

Spendio E-Commerce Platform

Full-featured online retail storefront with integrated business analytics and performance dashboards. Built with Next.js, TypeScript, and TailwindCSS. Implements responsive design, dynamic routing, and optimised image delivery.
